450 Plants with in ONE MINUTE PLANTING Drive

GCT students plant 450 saplings in one minute

TIMES NEWS NETWORK

While afforestation is the need of the hour, seems doing it the conventional way has become passé. Campuses in the city have taken up afforestation and editing it with style.

While National Service Scheme (NSS) volunteers of various University and affiliated colleges planted 800 saplings in three miles in an effort to create Sarathi Vanam, a mini forest, on the campus last month, students of the Government College of Technology (GCT) in the city on Sunday planted 450 saplings on the campus in one minute.

MISSION GREEN: As many as 140 students of the Government College of Technology in the city on Sunday planted 450 saplings on the campus in one minute.
