## **INDUCTION PROGRAMME (2020-2021)**

**(04/11/2020 TO 17/11/2020- 14 DAYS)**

### **1. INTRODUCTION**

Engineering colleges were established to train graduates well in the branch/department of admission, have a holistic outlook, and have a desire to work for national needs and beyond. The graduating student must have knowledge and skills in the area of his study. However, he must also have broad understanding of society and relationships. Character needs to be nurtured as an essential quality by which he would understand and fulfill his responsibility as an engineer, a citizen and a human being. Besides the above, several meta-skills and underlying values are needed. There is a mad rush for engineering today without the student determining for himself, his interests and his goals. This is a major factor in the current state of demotivating towards studies that exists among UG students. The success of gaining admission into a desired institution but failure on getting the desired branch, with peer pressure generating its own problems, leads to an environment that is corrosive.

To come out of this situation, multi- pronged approach is needed. One will have to work closely with the newly joined students to make them feel comfortable, allow them

to explore their academic interests and activities, reduce competition and make them work for excellence, promote bonding within them, build relationship between teachers and students, give a broader view of life, and build character.

## 2. **MANDATORY INDUCTION PROGRAMME**

When new students enter an institution, they come with diverse thoughts, backgrounds and preparations. It is important to help them adjust to the environment and inculcate in them the ethos of the institution with a sense of larger purpose.

We propose a 2- week induction program for the UG students entering the institution following the guidelines of Student Induction Program (SIP) Module for session 2020-21 under COVID-19 situation proposed by AICTE. Normal classes started after the induction program. The purpose of induction program is to make the students feel comfortable in their new environment, open them up, set a healthy daily routine, create bonding in the batch as well as between faculty and students, develop awareness, sensitivity, understanding of the self, people around them, society at large, and nature.

The following are the activities under the induction program (2020-2021) in which the students are fully engaged throughout the day for the entire duration of the program from 04.11.2020 to 17.11.2020 (14 days).

1. **Physical activity (YOGA)**
2. Creative Arts
3. **Universal Human Values**
4. Literary
5. Proficiency Modules
6. Lectures by Eminent People
7. Familiarization to Dept./Branch & Innovations
8. Students activities: Rotract Club, TEDX Talk, Green Club, Students Journalist Council (SJC), Literary and Debating Society (LDS), Eliminators, Youth Red Cross, Fine Arts, Tamil Mandram, Administrative Aspirants Club(AAC), Y's Service Club of GCT Youth etc...
