## CALENDAR -2022 – 2023

### VISION OF THE INSTITUTION

To emerge as a centre of excellence and eminence by imparting futuristic technical education keeping it on par with global standards; making our students technologically competent and ethically strong so that they can readily contribute to the rapid advancement of society and mankind.

### MISSION OF THE INSTITUTION

- To achieve academic excellence through innovative teaching and learning practices.
- To enhance employability and entrepreneurship.
- To improve the research competence to address societal needs.
- To inculcate a culture that supports and reinforces ethical and professional behaviour for a harmonious and prosperous society.

### STUDENTS PLEDGE

India is my country and all Indians are my brothers and sisters. I love my country and I am proud of its rich and varied heritage. I shall always strive to be worthy of it. I shall give my parents, teachers and all elders respect and treat everyone with courtesy. To my country and my people, I pledge my devotion. In their well being and prosperity alone, lies my happiness.

# **1. OVERVIEW OF GCT**

## **HISTORY OF THE COLLEGE**

The Government College of Technology, Coimbatore formerly known as Arthur Hope College of Technology, was started in July 1945 in accordance with the general policy of the then Government of Madras to give high priority to technical education under the post-war reconstruction schemes in order to meet the demand for trained engineers to complete industrial and developmental projects in the State. The late Mr. G.D. Naidu, the wellknown industrialist and Philanthropist of Coimbatore offered the premises, which had space for office, workshops, and hostel, free of rent for a period of three years along with a donation of Rs.2, 00,000 and the land for the present campus that facilitated the inception of the college in July 1945. The College was later shifted to the present permanent site of about 45 hectares on the Thadagam Road in June 1950. The College was then renamed Government College of Technology, which got its affiliation to the University of Madras in 1951. Initially, Civil and Electrical Engineering branches were offered and in 1952, Mechanical Engineering branch was introduced.

The main building of the College was formally opened by Dr. S. Radhakrishnan, the then Vice President of India on 8th October 1959. The three-year B.E. Degree course for B.Sc., graduates introduced in the year 1963 in Civil and Mechanical Engineering branches was subsequently abolished. The Syllabi for Engineering Studies were revised and in 1968, the five - year Semester System was introduced. In 1970, Electronics and Communication Engineering branch was started.

Post graduate degree courses in Structural Engineering (Civil) & Engineering Design (Mechanical) were started during 1971. Post graduate Degree in Power Systems in the discipline of Electrical and Electronics Engineering was introduced in the academic year 1977-78. With a view to facilitating Diploma holders pursue their engineering education, part-time B.E. Degree courses were started during the same year in Civil, Mechanical and Electrical branches. B.E. Production Engineering was introduced during the same period.

Consequent upon the introduction of the 10+2 Scheme, admission to the Five Year B.E. Degree courses ceased from the academic year 1984 - 85 and the Four year B.E. Degree courses were started. A Post-graduate degree course in Applied Electronics (Digital Electronics) and a Post-graduate degree course in Production Engineering were started during 1980 - 81. The M.E. Degree Course in Public Health Engineering was started during 1981- 82 whose nomenclature was changed to Environmental Engineering later. The M.Sc., Degree Course in Applied Chemistry was started during 1982 - 83 and was suspended in the late 90s. The Instrumentation and Control Engineering branch in the U.G. Programme was started during 1984 - 85 whose nomenclature was changed to Electronics & Instrumentation Engineering subsequently. B.E. Degree course in Computer Technology and Informatics was started during the year 1986 - 87. Then the nomenclature was changed to Computer Science & Engineering. A part time Post Graduate Degree in M.E. Computer Science was started in the academic year 1987- 88 which was suspended before the introduction of

Regulation 2016. Full time Degree Course in Computer Science was started in the academic year 1990 - 91. B.E. degreecourse in Information Technology was introduced in the academic year 2001 - 2002. All the UG and PG courses were affiliated to Anna University in the academic year 2001 - 2002. Consequently, six new PG courses were started in various disciplines. The Industrial Biotechnology Course which was started as a self-supporting course was then brought under the regular stream.

The college has got recognition from the Anna University for admitting research scholars to pursue their Doctoral work in the disciplines such as CivilEngineering, Mechanical Engineering, Electrical Engineering, Electronics &Communication Engineering, Computer Science & Engineering, Applied Chemistry, Applied Physics, Mathematics and English.

The College has completed 77 years of fruitful service and the National Board of Accreditation Committee has accorded accreditation for most of the branches of study, namely Mechanical, Production Engineering, Computer Science and Engineering and M.E Environmental, Power Electronics and Drives and Power System and Engineering. The UG courses namely, Civil Engineering, Electrical and Electronics Engineering, Electronics and Communication Engineering, Electronics and Instrumentation Engineering are in the process of obtaining accreditation. Efforts are being taken to obtain accreditation for all the other courses offered. Thus, from a humble beginning, the college has grown into a premier institution for Engineering Education in this part of the Country.

## **RESEARCH AND DEVELOPMENT**

Apart from consultancy work undertaken by engineering departments, academic research and R&D activities are at a par with leading Institutions of the country. This institute offers Doctoral Degrees in all Engineering, Science and Humanities departments in order to provide a platform for aspiring researchers to pursue their research. Research papers have been published and presented by faculty members and research scholars in referred journals, conferences, seminars and symposia of international and national repute. Seminars, conferences and symposia are also organized by various departments of our institute. A thriving environment for the faculty and students encourages collaborative research and consultancy resulting in several MoUs being signed with industry and other reputed academic and research institutions.

## **TESTING & CONSULTANCY**

The faculty at Government College of Technology has technical expertise in various research fields. The institute encourages its faculties to undertake testing and consultancy work through which the faculties contribute to the industrial growth, strengthen the institute-industry interface and enrich their professional experience. Anybody from Industry/ External Agency can contact the institute to resolve problems in almost every discipline of engineering, technology and science. Consultancy in its broader sense goes well with the institute as it fulfills the external requests of the industry/ agency with the help of its faculties.

## **TEQIP**

National Project Implementation Unit (NPIU) was established by Ministry of Human Resource Development, Government of India, in August 1990 for coordination, facilitation, monitoring and to provide guidance to the States/ Institutions in all aspects of the projects. Between 1991 and 2007, NPIU implemented three Technical Education Projects of Government of India with the assistantship of World Bank. These projects helped to strengthen and upgrade the Technical Education System which benefited 552 polytechnics in 27 States including UTs of Andaman & Nicobar Islands and Puducherry.

Technical Education Quality Improvement Programme (TEQIP) of Government of India is implemented as a World Bank assisted project to improve the quality of technical education system in the country. TEQIP is a long-term programme of 10-12 years and is implemented in three phases.

### **TEQIP - Phase I**

The Phase I of TEQIP was implemented in 13 States which covered 127 Institutions including 18 Centrally Funded Institutions. It became effective in March 2003. The Government College of Technology, Coimbatore has been one of the institutions selected for TEQIP Phase - I. The project activities started in the year 2003 and ended successfully in March 2008 with a funding of 14.6 Crores.

#### **Objectives:**

- a. Promoting Academic Excellence
- b. Networking of Institutions for quality enhancement and resource sharing
- c. Enhancing quality and reach of services to Community and Economy; System Management Capacity Improvement.

### **TEQIP - Phase II**

Based on the performance in the first phase, this institute had been selected for TEQIP Phase -II with a sanction of Rs. 17.5 Crores. The project successfully ended in March 2017.

#### **Objectives:**

- a. Scaling up Post -Graduate education and demand driven Research and Development innovation.
- b. Establishing Centres of Excellence for focussed applicable research
- c. Training of faculty for effective teaching
- d. Enhancing Institution and System Management effectiveness

### **TEQIP - Phase III**

Based on the performance in the TEQIP Phase-I and Phase - II, this institute has again been selected for TEQIP Phase -III with the sanction of Rs. 7 Crores. For sustaining the activities of established COEs, 3 Crores of additional funds was sanctioned. The Institution has the privilege of being a mentor for two institutions, namely i) Government Engineering College, Jagdhalpur and ii) National Institute of Technology, Arunachal Pradesh under TEQIP III. The Project Third phase of TEQIP is fully integrated with the Twelfth Five-year Plan objectives of Technical Education as a key component for improving the quality of Engineering Education in existing institutions with a special

consideration to Low Income States and Special Category States thereby support to strengthen a few affiliated technical universities to improve their policy, academic and management practices. The project successfully ended in March 2021 which was extended up to September 2021.

**Objectives:**

- a. Improving quality and equity in mentee engineering institutions in other states
- b. Taking System-level initiatives to strengthen sector governance and performance
- c. Making Twinning Arrangements to Build Capacity, Improving Performance of institutions and ensuring ATUs participation

**CENTRE OF EXCELLENCE - ENVIRONMENTAL STUDIES**

Environmental Engineering as a wing of Civil Engineering has established a “Centre of Excellence – Environmental Studies” (CoE – ES) under the sub-component 1.2.1 of TEQIP Phase II with the fund of Rs. 5 Crores being sanctioned by the NPIU, Noida. An additional fund of Rs.1 Crore has been sanctioned under the sub-component 1.3 of TEQIP Phase III. The CoE - ES has its long-term goals to develop a centre which is conducive for R&D activities of the concerned field. This may be possible by motivating researchers, bettering the industry-institute interaction in the use of new technologies pertaining to the field of Environmental Engineering in order to solve the industrial and practical problems.

The short-term goals of the centre are:

1. To achieve innovative researches at P.G. and Ph.D. levels
2. To impart better education through Educational programmes
3. To enhance both academic and sponsored researches in the field of Environmental Engineering, Bio-technology and Nano-Technology
4. To synergize research with other departments such as Bio-technology, Chemistry and Physics.

The COE aims to strengthen applied research, technology enhanced knowledge acquisition through long-term and short-term training courses, motivating the researchers in publishing papers in scientific journals, organizing seminars, workshops and conferences at National and International levels mainly for the scientific community. The Department has further signed MoU (Memorandum of Understanding) with Michigan State University, USA and CLRI, Chennai to promote research at a wider level.

**CENTRE OF EXCELLENCE - ALTERNATE ENERGY RESEARCH**

The Department of Electrical and Electronics Engineering has established a “Center of Excellence” for Alternative Energy Research with a grant of Rs. 5 Crores under TEQIP Phase II by NPIU, Noida. An additional fund of Rs.1.5 Crore has been sanctioned to the institute under the sub-component 1.3 of TEQIP Phase III. Wind Power and Solar Energy are the thematic areas of research in this discipline. The Short-term goals of the centre are:

1. To offer National and International Centre for innovation in the rapidly growing areas of Renewable Energy Resources like Solar and Wind.

2. To make it more viable in the curriculum through teaching, learning and research that engages faculty, students as well as industries in a mutually - beneficial collaboration.
3. To address the community by identifying and finding solutions to specific renewable energy projects, along with developing it.
4. To conduct research and investigation in the areas of Solar Energy and Wind power.

#### **CAMPUS WI-FI**

The college has a 8Mbps internet connectivity through leased circuit, 10 Mbps BSNL line and 1Gbps line under National knowledge network with 600 nodes covering the entire campus. The Wi-Fi facility has been provided to everyone in the campus and in the hostel. Most of the classrooms are ICT enabled with a computer, LCD facility, LAN and internet connectivity for enhancing teaching-learning process technologically viable. All the laboratories are provided with internet connectivity and computing systems to access worldwide web and e-learning materials. Seminar halls are equipped with multimedia facilities.

#### **STUDENT LIFE**

Students of this institute are exposed to various aspects of life apart from academics. An active student council, numerous club activities, festivals and sports keep them engaged and ensure all round development.

#### **EXTRA – CURRICULAR ACTIVITIES**

The College has created an ambience which encourages students to participate in extracurricular activities. The students exhibit their talents and services through various clubs such as Tamil Mandram, Literary and Debating Society (LDS), Fine Arts Club and Orchestra, Science Club, Rotaract Club, Youth Red Cross, National Cadet Corps, National Service Scheme, Red Ribbon Club, Eyantra Club, Computer Club, Robotics Club, Students Research Foundation (SRF), Student Journalist Council and YS Club. Students organize various activities under these clubs. It is noteworthy to mention that students while participating in intercollegiate cultural and literary contests, they win the rolling trophies in many Colleges and Universities. The self-made students have made an indelible mark in showcasing their versatile potentials at the national level intercollegiate cultural contests.

#### **CO – CURRICULAR ACTIVITIES**

Every Department conducts seminars, workshops and technical symposiums in emerging areas pertaining to their field to strengthen the theoretical and pragmatic understanding of students. The professional societies operated by every department comprise active student members who are properly guided by the faculty coordinators. These clubs help students edge in with competitive spirit.

## **LIBRARY**

Library with its huge collection of books and journals quenches the students' and the faculty's thirst for reading.

### **Collection of rare books**

The prestigious institute holds the pride of possessing old books written by internationally renowned authors which are rarely found in other institutes. It also has a very good collection of books of Indian and British Standards along with possessing bound Volumes of Journals. The institute holds the credit of possessing a collection of over one lakh books, e-journals, e-books and e-Shodh Sindhu besides stacking an excellent collection of Book Bank Books which are utilized by SC/ST students.

### **Digital Library**

Open access system available in the central library gives easy access to a huge collection of reference books and journals. Besides, E-resources and audiovisual materials in the Digital library are highly beneficial to researchers and tech savvy learners.

### **Integrated Library Management System**

Library is automated using Integrated Library Management System (ILMS). From 2007 to 2017, the library used Smart Campus Software, which consists of Acquisition, Cataloguing, Barcode based Circulation, and Web OPAC. OPAC allows students to browse a book by author, title or any keyword which provides links to all electronic resources available in the library. From this year onwards, Impres ERP Software Version: 2.0.50727.5483 is being used which also provides the above-mentioned facilities. Gate entry Register is maintained in the Issue and Reference Sections. In the Reference Section, books are monitored by RFID and E-Gate. The library is fully automated.

### **Guidelines to the Members**

All the faculties and students of this college are members of the college library.

Books, notebooks and other such personal possessions should be left at the entrance of the library. Absolute silence should be observed in the library.

The members should not write, create damage or make marks in the library books.

The members will be responsible for any damage caused to the books. If one book of a set is lost or damaged the whole set is liable to be replaced. Fine may also be imposed for the carelessness. The Principal's decision will be final in these matters.

Before leaving the library, the members should leave the books referred by them on the reading table. The library users should not replace the books in the stacks for they might be misplaced.

The library books in the issue section as well as in the reference section have been bar coded and the issue of books has been computerised.

### **Issue of Books**

Each student will be issued a maximum of three library borrower's tickets. Books may be issued for the student on producing a borrower's ticket, and only one book will be issued on a ticket. The ticket will be handed over to the student when he/she returns the book. Application for books should be made in the prescribed form, which is available in the library.

Students, losing a ticket will be issued a duplicate ticket on payment of Rs.25 after an enquiry and a written request by the student.

Before leaving the counter, the members confirm whether the lent books are in good condition and if not, they should immediately bring the matter to the notice of the staff at the counter failing which they are liable to be held responsible for the replacement of the book.

### **Loss of Library Books**

If any library book is lost, the borrower should replace the lost one by a new book of the latest edition. If he is not able to make a replacement, then double the original cost of the lost book, in the case of books purchased within eight years prior to the loss or thrice the original cost of the lost book, if the book was purchased earlier will be recovered from the borrower.

### **Special Book Bank**

Government of India sponsored Book Bank Section consisting of Text Books for BE Degree course (full time) has been established in the Library separately since 1979. As per the norms of Government of India, the SC /ST students of the regular B.E. Degree Course (full time) receiving post metric scholarship of Government of India are eligible to borrow books from this Book Bank Section of the Library. The catalogue of Text Books is available in the Book Bank Section of the Library for the issue of books to these students. These students will be permitted to take these books on loan every semester from this Book Bank.

A student has to submit a requisition form duly filled in with the recommendation of the Faculty Advisor and affix a stamp size photograph for the issue of books from this Books Bank. These students have to return all the Book Bank Books issued to them at the end of each semester. If any student fails to return the Book Bank Books within the stipulated period of time, fine will be collected from the student as per the Library rules.

### **Digital Library**

Digital Library is functioning from March 2007 onwards with 60 Computers, Two Multi function devices, Books, CDS and Journal CDS. International Journals and conference proceedings can be surfed by staff and students for their research and project works through Internet Access provided by INDEST. Students can access international journals through proquest. They can freely access NPTEL, compiled by

IIT professors. E-books published by MC Graw Hill and Pearson Education are also available in the digital library. All the books in Reference Section have RFID with E-GATE.

## **PLACEMENT**

The Placement and Training cell plays a crucial role to help students get placed in industries/ companies. Majority of final year students get placed through on campus interviews arranged by this cell. Enough arrangements are also made for the full time students to undergo industrial trainings/ internships during semester vacation. The periodical training sessions on career guidance by industrial experts and motivational talks delivered by eminent public speakers enable the students equip themselves. Once placed in industries, the placed students in each department impart periodical placement trainings on their juniors to make them emerge victorious in campus interviews. The efforts taken this way largely attribute to the success of many engineering students.

## **FACILITIES FOR SPORTS ACTIVITIES:**

The college has a playground of 46,816 sq.m. The ground houses many sports facilities like Basket ball, Volleyball, Football, Handball, Kabaddi, KhoKho, Box Cricket, Netball and Athletic track. Apart from outdoor games, college has made provision for indoor games such as Table tennis, Carom, Chess etc. Sports Day is celebrated every year and the winners are rewarded in the ceremony followed by the sports events. Further the college has a well-equipped gymnasium with facilities such as machine exercises, free weight exercises. These facilities are made available to all the students.
